KEEPING CHILDREN AND ADOLESCENTS WITH DOWN SYNDROME HEALTHY: ALL THE MEDICAL UPDATES THAT PARENTS NEED TO KNOW

MAY 11TH
2023

HYBRID EVENT
6:30PM-8:30PM

Description

In this presentation, Dr. Brian Skotko reviews all of the questions and concerns that parents most often have about their sons and daughters with Down syndrome. He provides the answers and action steps, stemming from the latest clinical research on people with Down syndrome. Based on his clinical experience in the Down Syndrome Program at Massachusetts General Hospital, Dr. Skotko makes sure that every parent can anticipate medical conditions so that the potentials of all people with Down syndrome are maximized.

Attend either virtually via Zoom, or join us in-person where dinner will be provided.

Dr. Brian Skotko

DSAF workshops are funded through a grant from Office of Persons with Developmental Disabilities (OPWDD). In order for us to maintain this funding, and continue supporting families, we need to clearly show that we are serving families who currently have TABS numbers and have Family Support Services (FSS). Thus, if you applied for and received a TAB number through OPWDD, we will be asking you for that information when you attend our grant sponsored events. Thank you for your support!
